## RoHS Compliance

DEIF is a company that sees social responsibility as an important issue. In our supply chain we are committed only to source materials and components from suppliers

- who respect human rights
- who conduct their business in an ethically sound way
- who have an environmental mind-set

We want to be ahead of relevant environmental designators, not only to be in compliance with them.

DEIF complies to EU legislation restricting the use of hazardous substances in electrical and electronic equipment (RoHS Directive 2011/65/EU, 2015/863/EU) and supports the collection and recycling of such equipment (WEEE directive 2002/95/EC).

Our products fall into Category 9 (Monitoring and Control Equipment) of the European RoHS legislation and have been included in the RoHS requirements since July 22<sup>nd</sup> 2017.

While DEIF complies with relevant environmental designations, we are also dedicated to supplying products manufactured to standards providing our customers with lasting and reliable solutions.

All active DEIF products comply with the RoHS directive.

If you have questions regarding the RoHS directive, do not hesitate to contact DEIF A/S headquarters at info@deif.com or telephone: +45 96149614.

Best Regards,  
DEIF A/S
